

BRIAN SHIELDS is a respected member of the community of NORTEL contractors, employed after James Allen, and cited in referral by Andrew Miller (PROCEED) for follow up report of this discovery by James Allen which appears to sustain later discovery and report of record to the CANADIAN PRESS by SHIELDS. BRIAN SHIELDS confirms claims of espionage made by James Allen in his account of fraud and contrary fraud by DONALD J BEAL And VERONICA MARIE PETERSEN, as featured in "The Wall Street Journal":

Chinese Hackers Suspected In Long-Term Nortel Breach

By Siobhan Gorman

Updated Feb. 14, 2012 12:01 am ET

The Wall Street Journal

"Using seven passwords stolen from top Nortel executives, including the chief executive, the hackers - who appeared to be working in China - penetrated Nortel's Computers at least as far back as 2000 and over the years downloaded technical papers, research-and-development reports, business plans, employee emails and other documents, according to Brian Shields, a former 19-year Nortel veteran who led the internal investigation."
